Program Overview

About Leadership Coachella Valley

Leadership Coachella Valley is a program designed to identify, motivate and develop future community leaders. The program encourages community involvement by providing knowledge and perspective on valley-wide needs and concerns. Participants meet current community leaders in forum and group discussion settings.

Leadership Coachella Valley offers emerging and established community leaders a unique opportunity to be a part of a group that has come together to:

- Learn about the issues affecting the Coachella Valley through open and balanced discussions and presentations
- Develop their personal and professional leadership skills
- Build relationships with others who seek to grow as leaders and find solutions to the issues facing our valley
- Get involved

The Program

Once a month from September through June, participants attend an all-day seminar in which important community topics and issues are reviewed and discussed. The format includes a combination of presentations, panel discussions and hands-on visits to locales relevant to the day's theme. Experts share their insights and views and interact with participants during lively discussions.

Benefits

LCV Program participants will grow in awareness and understanding of the issues and challenges facing our community. They will also develop valuable contacts within the community and networks for the future. Most importantly, Leadership Coachella Valley participants become an even more involved group of individuals making our community a better place to live and work.

Program Overview

All Participants Should Demonstrate:

- A passion and interest for the people and future of the Coachella Valley
- A demonstrated commitment to the community through past and current activities
- A willingness to commit the time and energy necessary to complete the program requirements, which requires the full support of their organization
- A commitment to representing the Leadership Coachella Valley program in a positive light now and in the future.
